

EDUCATIONAL EXCELLENCE

Educational excellence should be defined as the process of culturing the individual to display perfection in life. Educational excellence should enable any individual to spontaneously utilize the total Creative Intelligence of Natural Law.

All his thought, speech, and action will be spontaneously upheld by the silent power of peace that permeates all activity in the universe.

Unbounded is the potential of individual life; unbounded is the fields of intelligence of every individual-every individual should be able to know anything, do anything spontaneously right, and accomplish anything through the support of Natural Law. Creating such a perfect individual is purpose of the Maharishi Mahesh Yogi Vedic Vishwavidyalaya

The reality is that life is bliss-life is a field of all possibilities-the self of everyone is the eternally self-referral state of consciousness, and in this state of eternal silence is the lively field of all possibilities, Rik Veda, the Cosmic Constitution of the Universe, the source of physiology, the source of material creation, proclaims; *Yatinam Brahma bhavati sarathhi* (Rik Veda, 1.158.6)-Established in one's own self-referral silence, one spontaneously commands the total potential of the infinite dynamism of Natural Law, which creates and administers the entire Cosmic Life, maintaining perpetual order in the ever-expanding universe.

Maharishi Mahesh Yogi Vedic Vishwavidyalaya is designed to demonstrate perfection in education. It offers all knowledge in every brain instead of all knowledge in library.

Maharishi Mahesh Yogi Vedic Vishwavidyalaya offers every individual daily life endowed with the ability to prevent problems and avert danger that has not yet come (*Heyam dukham anagatam*).

The supreme ideal of education-perfection in life-is going to be the achievement of the Maharishi Mahesh Yogi Vedic Vishwavidyalaya

The supreme ideal of management is to engage the skilled hands of nature to perform. The manager and administrator should only play the role of witnessing-Purusha and let the nature-*Prakrati* perform.

“मयाध्यक्षेण प्रकृतिः सूयते सचराचरम्”
(In my presidency my nature performs)

SPECIAL FEATURES OF EDUCATION AT MMYVV

Maharishi's Vedic Science - Consciousness Based Education

Students at Maharishi Mahesh Yogi Vedic Vishwavidyalaya are given an integrated, unified version of all aspects of life through study of the principles of Maharishi's Vedic Science and Technology and study of the Laws of Nature, which structure and uphold growth and progress in all forms of nature, including human life. Maharishi's Vedic Science includes the study of all 40 aspects* of Ved and Vedic Literature. Students feel an intimate connection to these universal principles of Vedic Science and come to understand the simple functioning of Natural Law in their own lives and in the world around them.

The key value of studying the Maharishi's Vedic Science is that the students learn the connectedness of these universal principles of intelligence to their own Pure Consciousness, experienced in their daily practice of Maharishi's Transcendental Meditation and its advance programmes. Maharishi Consciousness based unique system of Education helps expand individual consciousness to achieve higher states. This system of education has been successfully implemented in Schools Colleges and Universities across the world including India for more than five decades.

This balance of knowledge and experience creates an ideal situation for smooth and rapid growth in all areas of the student's lives. The daily practice of Maharishi's Transcendental Meditation provides a perfect foundation for education; the development of the students own for Consciousness, with this growth of pure wake fullness, creative genius blossoms, and intelligence and organizing power are naturally developed. For education to be complete, it must include the total development of consciousness, which is an ocean of knowledge, power and bliss. This will be a unique opportunity for the students of Maharishi Mahesh Yogi Vedic Vishwavidyalaya.

Incorporating Transcendental Meditation Programme in the curriculum

The practice of Maharishi's Transcendental Meditation Programme is the practical aspect of Maharishi's Vedic Science which studies the basic Principles underlying and supporting the development of consciousness, found throughout all of creation. This deep connection between the student's own growth of consciousness and the universe around them is an integral part of Maharishi Mahesh Yogi Vedic Vishwavidyalaya.

Maharishi's Transcendental Meditation technique is a simple, natural and effortless technique that is easily and systematically learnt by anyone irrespective of age, education, religion, or background.

The twice-daily group practice of Maharishi's Transcendental Meditation and its advanced programmes creates an environment that is ideal for the learning process. Students gain a natural orderliness and coherence; they become more receptive to knowledge; they exhibit greater alertness; and they radiate bliss and friendliness to their classmates and their teachers.

Scientific validation of Transcendental Meditation

Over 50 years of use in education, more than 600 scientific research studies in 33 countries and in 220 independent research institutions, the personal experience of over 7 million people worldwide demonstrates that the Transcendental Meditation Programme greatly benefits mind, body, and behavior. Scientific findings relevant to education include;

- * Improved academic achievement.
- * Improved intelligence and creativity.
- * Greater coherence of brain functioning.
- * Improved memory and learning ability.
- * Increased energy and alertness.
- * Improved concentration and ability to focus behavior.
